Sara Case wins an Environmental Endorsement
from the Broward Independent Green Party

The Broward Independent Green Party announced today that it is officially endorsing Sara Case in her bid for the Hollywood City Commission, District 1 seat, in recognition of her longstanding efforts for environmental protection throughout South Florida.

"Sara has been at the forefront of local efforts to preserve sensitive ecological habitat, and has worked diligently to develop comprehensive strategies for maintaining green space in the face of a rapidly expanding human population," says spokesperson Cara Campbell.

Co-Chair Gary Hecker also cites her advocacy for controls on urban development as a reason for the endorsement. "Sara understands that the problems facing Hollywood are interconnected. Over-development, population growth, water and energy shortages, and outdated modes of sewage disposal, are all related. She realizes these issues require a comprehensive approach rather than the current patchwork solutions to extremely complex problems. Sara Case is the one candidate with the background, knowledge, experience and most important, desire, to begin the vital process of effectively connecting the needs of the environment with the needs of the citizens."

The Broward Independent Green Party is dedicated to preserving our environment through the political process. It is not associated with the state or national Green Parties.
